

TG Shield

High Performance Cooling Solutions

Thermal Grizzly advertises with the slogan „High Performance Cooling Solutions“ and, in cooperation with mechatronics engineer and OC legend Roman „der8auer“ Hartung, has once again substantiated this claim.

High-temperature protective coating

TG Shield is a high-temperature protective coating that was primarily developed for use as protection against liquid metal or other electrically conductive thermal conductors. TG Shield has been optimized for fast drying and offers reliable protection of PC components. An integrated brush for even application enables precise and easy application. The high application temperature enables use on all common CPUs, mainboards and graphics cards.

Short Information

- Protection of PC components
- Application range up to 150° Celsius
- Dries in 30 minutes at 20 °C
- Easy to use

Technical data

Unit:	Value/Description:
Colour:	Red
Application temperature:	- 20° C to 150° C
Curing time:	30 min at 20 °C
Inhalt:	5 ml
Typical application:	CPUs, GPUs, motherboards
Packaging size:	2,5x2,5x8,6 cm
*Net weight:	37g
*Gross weight:	43g
Item number:	TG-ASH-050-RT
EAN-Code:	4260711990427
PU:	12 Pcs.

*Net weight is the total weight of an article excluding the weight of packaging and accessories. The gross weight refers to the total weight of the product including accessories and packaging. Slight weight deviations.

Scope of Delivery

- TG Shield
