

TG Caliper

High Performance Cooling Solutions

The TG Caliper is an affordable digital caliper that covers the most important measuring functions in the PC DIY segment. It is also rust-resistant, as it is made from high-hardness ABS plastic. In addition to measuring the thickness of thermal pads, it can also be used to determine inside and outside diameters as well as the wall thickness of soft and hard tubes. The tool is also ideal for measuring screws. The measuring range is up to 150 mm / 6 inches.

The measured values are displayed on the LCD in either the metric or imperial system, with a resolution/readout of 0.1 mm / 0.01 inch and an accuracy of ± 0.2 mm / 0.01 inch. A zero function allows two measurements to be compared easily. The device is powered by an LR44 battery, and two of them are included in the package. The caliper is dust- and splash-resistant (IP54).

Disposal of Batteries (according to the German Battery Act - BattG)

Batteries and rechargeable batteries contain both valuable resources and harmful substances. For this reason, consumers are legally required to return them to authorized collection points. Batteries and rechargeable batteries must not be disposed of in household waste.

Used batteries and rechargeable batteries can be returned free of charge to municipal collection points or recycling centers, as well as to any retailer that sells batteries/rechargeable batteries. Additionally, returns can be made at our shipping warehouse.

All types of batteries are covered, regardless of shape, size, weight, material composition, or intended use. The law therefore also applies to batteries that are built into or supplied with products.
Technical Specifications

Technical data

Unit:	Value/Description:
Measuring range:	150 mm / 6 inch
Resolution/Readout:	0.1 mm / 0.01 inch
Accuracy:	± 0.2 mm / 0.01 inch
Power supply:	LR44 battery
Material:	ABS plastic
Dust and splash protection:	IP54
Packaging Size:	25,5 x 10 x 3 cm
*Gross Weight:	212 g
*Net Weight:	48 g
Item Number:	TG-CAL-150
EAN Code:	4260711992100
PU:	6 pcs

*Net weight is the total weight of an article excluding the weight of packaging and accessories. The gross weight refers to the total weight of the product including accessories and packaging. Slight weight deviations are possible due to production factors.

Scope of Delivery

- 1x TG Caliper
- 1x Spare battery

Short Information

- Display on LCD in mm/in
- Outside, inside, step, and depth measurements
- Made of high-hardness ABS plastic
- ZERO function & ergonomic handling
- Dust- and splash-resistant (IP54)
- Batteries included

General Notes

- Keep measuring surfaces clean.
- Clean only with alcohol-based cleaners.
- Protect from:
 - Moisture and dust
 - Electrical voltage
 - Impact damage
- Remove the batteries when the caliper is not in continuous use.

Please note

The data in this technical data sheet are based on our current knowledge and experience. Due to the large amount of possible factors, this should not be construed as to release the users from doing their own tests and screening. No legally binding assurance of specific properties or applicability for a concrete purpose should be derived from these data. Please consider contacting us for further detail. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.
